# CSS

Le Wagon China Product

## 还有CSS

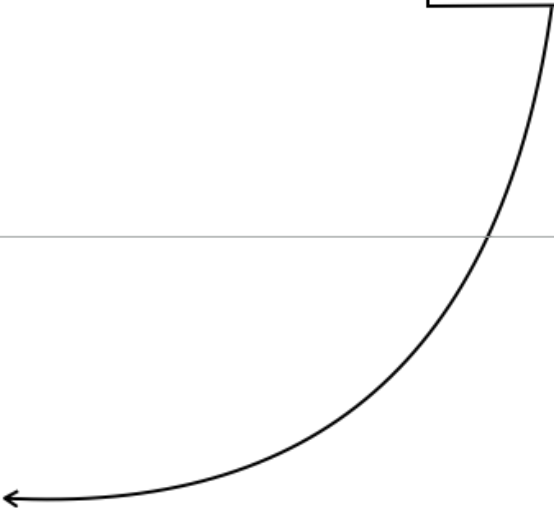

- 用Chrome的开发工具剪切[medium.com](https://medium.com)的 `<head>` 区域
- 你看到的是一个没有CSS样式的网站

# 如何引入CSS到HTML中

 index.html

```
1 <head>
2   <link rel="stylesheet" href="style.css">
3 </head>
4 <body>
5   <h1>Hello</h1>
6 </body>
```

 style.css

```
1 h1 {
2   color: red;
3 }
```

# CSS语法

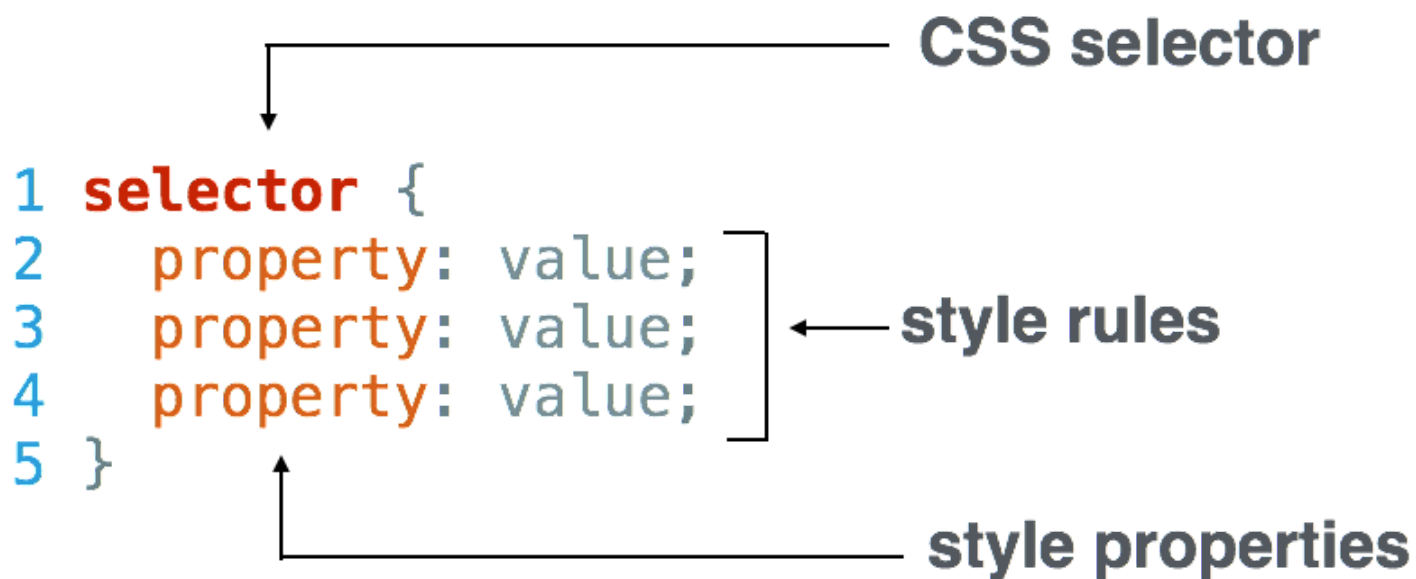

selection of one or more elements of the page..

```
1 selector {  
2   property: value;  
3   property: value;  
4   property: value;  
5 }
```

..on which we define style rules

# CSS词汇

## 例如

we select  
**all <h2>** of the page

```
1 h2 {  
2   color: red;  
3   font-size: 20px;  
4   font-family: arial;  
5 }
```

# 颜色

```
color: #FF530D;  
color: rgb(255, 83, 13);  
color: rgba(255, 83, 13, 1.0);
```

## 颜色 - 提示

```
body {  
  color: rgb(10, 10, 10);  
}
```

- RGB 代表 Red (红) Green (绿) Blue (蓝)
- 强度值: 0-255
- 当三色灰度数值相同时, 产生不同灰度值的灰色调

## 文本 vs 背景

```
1 body {  
2   color: orange;  
3   background-color: yellow;  
4 }
```

text color

background color

The diagram shows a CSS code block with four lines. The first line is '1 body {', the second is '2 color: orange;', the third is '3 background-color: yellow;', and the fourth is '4 }'. The word 'body' is highlighted in yellow. The word 'color' is highlighted in orange, and the word 'background-color' is highlighted in orange. The word 'orange' is highlighted in green, and the word 'yellow' is highlighted in green. An arrow points from the text 'text color' to the 'color' property. Another arrow points from the text 'background color' to the 'background-color' property.

## 背景图片

```
1 body {  
2   color: orange;  
3   background-image: url("background.jpg");

<!-- footer: Le Wagon China Product -->
! [bg] (background.png)

--- index.html <!-- footer: Le Wagon China Product -->
! [bg] (background.png)

--->
[... ]
<body>
  <h1>Hello World</h1>
</body>
```

加上 `css/* style.css */h1 {color: red;font-weight: bold;}`  
使 `h1` 元素变成红色和粗体

# Class选择器

```
<!-- footer: Le Wagon China Product -->
! [bg] (background.png)

--- index.html <!-- footer: Le Wagon China Product -->

```

## 加上

```
/* style.css */
#navigation > li > a {
  color: blue;
}
```

# 组合

```
/* style.css */  
h1, h2, h3 {
